DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/24/03 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 52 and 54 are rejected under 35 U.S.C. 102(b) as being anticipated by Solomon (US 5,067,233).

Solomon discloses a contact head (21) and a semiconductive material (13 is monocrystalline silicon), and Fig. 2b shows they are joined. Solomon discloses in Fig. 13a the contact pads are bonded and coated with an alloy (col. 6, lines 30-34).

Claim Rejections - 35 USC § 103

- 4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Application/Control Number: 09/652,585

Art Unit: 3729

5. Claim 53 is rejected under 35 U.S.C. 103(a) as being unpatentable over Solomon (US 5,067,233).

Solomon discloses in Fig. 13a the contact pads are bonded (col. 6, lines 30-31).

Solomon fails to disclose stamping a metal element.

At the time the invention was made, it would have been an obvious matter of design choice to a person of ordinary skill in the art to stamp a metal element because Applicant has not disclosed that stamping a metal element provides an advantage, is used for a particular purpose, or solves a stated problem. One of ordinary skill in the art, furthermore, would have expected Applicant's invention to perform equally well with etching or machining the metal element because the end result would form electrical conductors or elements.

Therefore, it would have been an obvious matter of design choice to modify Solomon to obtain the invention as specified in claim 53.

Response to Arguments

6. Applicant's arguments with respect to claims 52-54 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for better clarity. Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as

Art Unit: 3729

originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rick K. Chang whose telephone number is (703) 308-4784. The examiner can normally be reached on 5:30 AM to 1:30 PM, Monday through Thursday.

The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9302 for regular communications and (703) 872-9303 for After Final communications.
